

Cannery Leveled By Fire

Damage In Coloma Blaze
May Reach \$75,000

COLOMA — Fire of undetermined origin caused an estimated \$75,000 damage and destroyed about 90 per cent of the old Coloma Cooperative Canning company building here yesterday afternoon.

Coloma Fire Chief Leonard Dolezan said a state fire

marshal was expected at the scene today to investigate cause of the blaze.

It was the second major fire in the area within the past week. Thursday night Ace hardware, Scottsdale, was destroyed. Damage in that fire, also of unknown origin, may run as high as \$1 million.

The old cannery, now owned by Badt's Pharmacy, Inc., was being used for storage as the co-op was nearing completion of moving its operation to new facilities in Hager township.

Coloma and Watervliet firemen got the call at 2:45 p.m. and brought the fire under control by 4:30. A large column of black smoke was visible from as far away as Benton Harbor.

Coloma firemen reported three separate explosions of unknown origin during the fire, all coming from the east side of the building. One fireman, Wayne Kreitner, was knocked to the ground by the impact, but was not injured.

No injuries were reported to any of the 35 firemen involved.

Sparks landed on the roof of the M. Steffen and Company building, located across the street, causing minor damage to two areas of the vinegar processing plant roof. They were extinguished by the firm's maintenance men Vince Gibson and Al Jorgenson.

Firemen said an employee of M. Steffen company, Phyllis Head, route 3, Watervliet, told them she saw a woman dressed in a white blouse and slacks leave the cannery about 15 minutes prior to discovery of the fire.

Two small children also were reported seen running from the building before the fire.

A front-end loader was brought in to demolish standing walls on the east, north and south sides of the building. The only remaining portion was a brick warehouse structure facing West street.

The building was purchased by the pharmacy in March for a reported \$110,000 as a site for future commercial development.

Marshall Badt, pharmacy president, said the firm had planned to lease space in the building to packaging firms.

School Staffs Told To Integrate

GRAND RAPIDS, Mich. (AP) — A federal judge today ordered the Grand Rapids school system to integrate its staff but rejected arguments that its student body is segregated.

Ruling in a suit filed in 1970 by the NAACP, U.S. Dist. Court Judge Albert Engel rejected NAACP contentions that Grand Rapids operates a dual school system for its 70,000 students, with some schools all black and others all white.

He also dismissed from the suit 11 suburbs, which the NAACP had sought to include in a metropolitan area desegregation plan.

Engle gave the Grand Rapids school system a July 27 deadline to devise a plan to desegregate its 1,800 teachers and administrators.

The ruling came nearly four months after the end of a three-month trial here.

Food Prices Top Priority In Phase 4

Insiders are saying "food will be center stage" as the nation awaits details of the Nixon administration's Phase 4 economic controls which are being announced today.

The administration is expected to give the food industry an early release from the 60-day price freeze, but the new controls will be tough.

The food industry says it has been hurt by the freeze. Processors have complained of a profit squeeze, some farmers are withholding supplies from market and the industry has predicted some spot shortages.

Wages are expected to be held at the same 5.5-per-cent-a-year level.

For the Phase 4 story see page 8.

SECRETARY SCHULTZ

Oil Firms Accused Of Having Monopoly

WASHINGTON (AP) — The Federal Trade Commission has accused the Big Eight oil companies of anticompetitive practices, claiming the firms have earned bigger profits as a result and that consumers have had to pay higher gasoline prices.

The FTC said it expected the antitrust battle to be long and drawn out.

The government suit also said that independent fuel marketers have suffered

because of the actions by the eight.

The corporations named in the FTC action were, in decreasing order of size, Exxon, Texaco, Gulf, Mobil, Standard of California, Standard of Indiana, Shell and Atlantic Richfield.

Seven of them are among the 20 biggest corporations in the United States. The FTC estimated the eight accounted for \$44 billion in sales in 1972.

The commission proposed no remedy for the alleged monopoly, but pointed out that all of the companies are what economists call vertically integrated, or involved in every level of the industry from drilling for crude oil to pumping gasoline at service stations. Industry said the FTC staff, in recommendations submitted to the commission July 2, had urged dismantling of the vertical integration.

If challenged as expected, the FTC complaint would go directly to an FTC administrative judge. His decision could be appealed to the full commission and that could be appealed through the courts.

"There's no way these guys are going to roll over and play dead," said one FTC official who predicted the action would involve "years and years of

work." The FTC moved as the American Automobile Association and a government fuel expert said the nation's fuel shortages seem to be easing.

"We're optimistic the worst is (See back page, sec. 1, col. 5)

Spiro Agnew Breaks Tie On Pipeline

WASHINGTON (AP) — For the first time in more than four years in office, Vice President Spiro T. Agnew cast a deciding vote in the Senate Tuesday.

Under the Constitution, the vice president is president of the Senate and has authority to vote to break ties in that body. Agnew voted for a motion to table and thus kill a move to reconsider an Alaska pipeline amendment.

The motion to table was approved 50 to 49, thus sealing approval of the amendment which had won a cliffhanger 49-48 vote. The amendment was designed to kill a court suit blocking construction of the pipeline.

SMOLDERING RUINS: Smoldering ruins were all that remained of old Coloma Cooperative Canning

company building, Coloma, after fire destroyed structure yesterday afternoon. Firemen from

Coloma and Watervliet fought blaze more than three hours. (Staff photo)

DOUBLE IDENTITY: State Trooper George Tiernan became suspicious when he saw these signs on truck, parked off I-94, Friday. "Exchange Auto Supply" and telephone number appear on door, while "U.S. Mail" is written across front, near top. Tiernan said check showed no such auto supply firm, while phone number was reported non-existent. No explanation was found for the mail sign. (Staff photo)

Broken-Down Truck Leads To Arrests

Troopers Seize Car Parts Worth \$10,000

BY RALPH LUTZ
Staff Writer

Two Chicagoans were arrested Friday by state police from the Benton Harbor post, who confiscated a truckload of auto parts and an air compressor, with an estimated value of about \$10,000.

The investigation began about noon, when Trooper George Tiernan encountered a large van truck, broken down off

eastbound I-94, between Park and Boyer roads, Coloma township.

Tiernan was surprised to find the driver in the cab, bleeding profusely about both hands and arms. It developed that the driver earlier had climbed over a fence and was attacked and mauled in a field by a St. Bernard dog.

The trooper also was suspicious when he saw two identifications on the truck: Exchange Auto Supply, on the doors, and U.S. Mail written across the front, near the top.

The truck driver told Tiernan he was "waiting for my boss," who reportedly owned the truck. Tiernan said soon afterwards, a car pulled up and a man got out.

Tiernan radioed for assistance, and Trooper James Boss took the driver to Mercy hospital for treatment that included 14 stitches.

Meanwhile, the post sought a search warrant. This was authorized by the Berrien prosecutor's office and issued by Fifth District Judge Leo Cook.

Inside the truck, troopers found:

Four front ends, except for the engines; 15 tires and wheels, four disc brake units, five batteries, four radios, eight bumpers, 10 doors and four trunk lids—all reported from 1973 model autos, mostly Oldsmobiles and Pontiacs. There also was one air compressor.

Booked Friday night after questioning were Charles Coats, 44, the injured truck driver, and his brother, Lester Coats, 40, both of Chicago. They were booked on charges of possession of stolen property, over \$100.

Tiernan said a check in Chicago found no Exchange Auto Supply firm, and a telephone number, also listed on the truck doors, was found to be non-existent. The reason for U.S. Mail on the front has not been found.

House OKs Reprieve For 'Queen'

WASHINGTON (AP) — The Coast Guard calls it a fire risk and wants it hauled out of the water, but if the House has its way the paddlewheeler Delta Queen will sail the nation's rivers for at least another five years.

Responding to "an outpouring of emotion" from riverboat lovers, the House has approved a five-year exemption from the Marine Safety Law for the mostly wooden steamboat.

"She should be allowed to continue to ply the inland rivers of the United States because of her great historic and cultural value," says the House Merchant Marine and Fisheries Committee in recommending the exemption for the second time in nearly three years.

Plying the Ohio, Tennessee and Mississippi rivers, the Delta Queen makes port calls in 17 states, carrying about 90 per cent of its capacity of 180 passengers.

NEW CAR PARTS: Piled in garage at Benton Harbor state police post are some of parts, believed stolen from new cars. Confiscated were four front ends, 15 tires and wheels, four disc brake units, five batteries, four radios, eight bumpers, 10 doors and four trunk lids. Troopers said parts were from 1973 cars. (Staff photos)

BH Charter Panel Pressing Against Its Final Deadline

The Benton Harbor city charter commission, through a combination of circumstances, became untracked from its timetable, and a resolution accepting the proposed new constitution was not passed yesterday.

The commission will meet again at 4 p.m. tomorrow to complete work.

The resolution is needed to submit the proposed charter to the governor's office by the deadline Friday for review and to the voters next Sept. 18. It was reported desirable for all commission members to sign it, although they may campaign either for

or against the charter's fate at the polls. The deadline is 60 days before the election.

Circumstances that developed yesterday included: Several recommendations for clarifications and changes by City Manager Charles A. Morrison, who received the complete proposed charter only during the past week. Department heads also got their first drafts at the same time.

The changes to be made call for retyping in the Kalamazoo office of Atty. David Morris, special counsel to the charter commission.

TWO LEAVE MEETING

Also, two members, Mrs. Annie Robinson and Mrs. Barbara Jones, departed yesterday's meeting at 6:10 p.m., having other commitments. Under earlier commission matters, the time of meetings was set from 4 to 6 p.m. Atty. Morris, however, appeared surprised at the departures, saying the business was nearly finished. He later said all members should, if possible, be present for the final resolution.

Another member, Ralph Lhotka, left on vacation, but signed the draft before he left. Atty. Morris said changes made should not make Lhotka's signature void.

When the session ended at 6:16 p.m., it became apparent that police and fire pensions and civil service will be key points of controversy.

Manager Morrison's suggestions began with a statement on pensions: "It would be helpful to know in detail the ramifications that this section has for existing police and fire personnel."

Several fire department representatives, with Roy Hearn as spokesman, attended yesterday's session, and voiced doubts that a downgraded pension system could keep police and fire departments strong, personnel-wise.

NOT SPECIFIC

The new charter merely calls for a pension, and asks that any plan be drafted as ordinance by the city commission. The present charter is more specific.

Morrison stated on civil service: "A number of employees have expressed concern that removal of civil service from the charter would lead to a 'spoils' system. Personally, I feel that the charter provision would be a good base for a strong personnel system, which would be more responsive to the city's needs."

The existing charter spells out the civil service procedure. The proposed one does not, nor does it use the term civil service. It calls for the commission to pass a merit system ordinance.

An attempt at compromise by inserting civil service into the new charter was defeated in a 4-to-4 tie vote.

Opposed were members Victor Greer, chairman; James Murphy, Mrs. Robinson, and Mrs. Jones.

Supporters were Wilbert Smith, vice chairman, William Parks, Laurence Fish, and Hershel McKenzie. Lhotka's absence prevented the vote from being a majority, one way or the other.

The charter commission earlier decided that no city employee can become a candidate for an elective office. Morrison said this might be an infringement on constitutional rights. The commission compromised only to the point of deciding that no city elected official or employee may run for municipal office. The change frees them to run for other offices, such as county commissioner.

FIREMEN PRESENT ARGUMENT

The firemen presented a strong argument, and detailed earlier court decisions forcing the city to properly fund the pension. They had a letter detailing cases from Atty. Thomas R. Fette of the St. Joseph law firm of Ryan, McQuillan, Vander Ploeg and Fette.

Also received was a statement by City Commissioner Edmund Eaman, who also cited the controversial pension program. Eaman called for a maximum pension awarded after 30 years or more of service, and stated that the percentage should be written into the charter.

City Commissioner Carl Brown, likewise, appeared before the charter commission and called for more powers for the mayor, and inclusion into the charter of a residency requirement for city employees. The latter was left to the commission to handle by ordinance.

Heart Center Featured On TV

A documentary on heart ailment and treatment, filmed at Benton Harbor Mercy hospital, will be shown at 7 p.m. Sunday (Michigan time) on "Assignment 22," a WSBT-TV, channel 22, public affairs program.

The documentary also will be re-run by the station at midnight, Sunday, July 29.

Filed at Mercy's Tri-County Cardiovascular Center and in an operating room during open heart surgery, the emphasis is on diagnosis and treatment of heart disease in Southwestern Michigan.

The cardiovascular center began functioning last fall and the first open heart surgery was performed last February. The openings, detailed in this news-

paper, included a report from C.T. Loftus, Mercy executive vice-president, who predicted that about 600 of the more than 1,200 Tri-County residents who die of heart disease each year could be saved by the new facilities. The area served includes Berrien, Van Buren, and Cass counties.

The filmed documentary traces a patient's steps through various diagnostic procedures to treatment, that could include open heart surgery, and post-operative care and rehabilitation. "In providing services usually found at a much larger hospital, we felt that Mercy hospital had an interesting story to tell," said Jack Rowe, news director of the South Bend television station.

Whirlpool Appoints Ad Chief

B. David Allen, has been promoted by Whirlpool Corp. to the post of national advertising manager.

The announcement was made by William H. Howard, director of merchandising for Whirlpool. Howard said Allen will report to Ronald I. Gow, director of marketing communications.

Allen joined Whirlpool in 1971 as manager, marketing planning. He has served as manager of planning for the consumer services division for the past 11 months. Allen in 1965 received a master's degree in business administration from Northwestern university. Before joining Whirlpool, Allen served as an

B. DAVID ALLEN
Moves Up

account executive for Benton & Bowles advertising agency, New York City, and for three years as a captain in the U.S. Marine Corps.

Allen and his wife, Jacquie, reside at 230 Higman Park road, Benton township.

SJ Township Told Apartment Makeup

St. Joseph township planning commission Tuesday received more details from Wayne R. Nelson, Indianapolis, Ind. developer on the 254-unit, \$4.3 million "Jamestown Village" he proposes to build at 3563 Cleveland avenue in St. Joseph township.

The plans were first unveiled at the June 27 meeting of the planning commission. The project requires rezoning action from single family to multiple family planned development.

Planning Commission Chairman Ernest Knauf assigned David Bozart, newly appointed to the commission, and Royce Leary to serve as liaison officers between the developer and the board.

The first task of the liaison team will be to show the proposed site plan to the county planning commission for its preliminary evaluation.

Nelson said the colonial style, two-story, adults only project will have 24 one-bedroom; 18 efficiency and 18 studio apartments; 114 two bedroom units and 32 two bedroom townhouses, and 24 three bedroom townhouses.

Difference between apartments and townhouses is that in townhouses the bedrooms are upstairs.

The project will be built on 20 acres, in three stages. Nelson said his survey shows there is a need for this type of big, luxury apartments.

Two Deputies Win Higher Rank, Pay

Berrien Sheriff Forrest "Nick" Jewell Tuesday announced promotions in rank and pay for two men, Det. Ronald Immoos, 33, and Deputy Tom B. McCall, 30.

Immoos, of St. Joseph, was promoted to the rank of captain—the second captain in the department—with the title chief of detectives.

McCall, of St. Joseph, a member of the department the past four years, is now a lieutenant in recognition of increased responsibilities as

director of the Berrien county Office of Emergency Preparedness, successor to Civil Defense, the sheriff said.

Immoos has headed the sheriff's seven-member detective bureau the past four years, "and now he's getting paid for it," the sheriff added.

The only other captain at the department is Gerald Hass, head of the identification bureau.

The title "chief of detectives" for Immoos is a reinstatement of a title from years ago.

"Both of them are very capable people," the sheriff said of the two promoted officers. "I'm glad the commissioners gave us the positions."

County commissioners in June created higher posts for the two men. Immoos' salary goes from \$11,596 to \$11,908, and McCall's from \$9,698 to \$11,362.

Stadium Bonds Are Purchased

PONTIAC, Mich. (AP) — A New York brokerage firm has purchased some \$40.9 million in bonds for construction of the Pontiac Stadium, future home of the Detroit Lions pro football team.

Halsey-Stewart submitted a low bid of 5.6945 per cent Tuesday on \$15.9 million of general obligation bonds and 6.5962 per cent on \$25 million of revenue bonds.

Dies In Crash

A 20-year-old Freeland man was the only person killed on state roads in the 24-hour period ending at 7 a.m. today, according to the Michigan State Police.

Bruce Kaeckmeister died Tuesday in Saginaw County's Saginaw Township in a two-car collision.

CAPT. RONALD IMMOOS

LT. TOM B. MCCALL

Benton Authorizes Paving For Britain, Carmody Road

The Benton township board of trustees last night passed two resolutions authorizing the paving of parts of Britain avenue and Carmody road, with payments over a five-year period at an interest rate of 6 per cent.

Clerk Ralph Dahn said some improvements will be made this year by the Berrien county road commission, but double-sealing will not be done until next year.

Property owners on Britain will be assessed \$1.33 per front

foot, and property owners along Carmody will be charged 75-cents a front foot. The township will pay \$1 per front foot for road paving.

Britain will be paved from Paul road east for slightly over a mile (to the township line), while Carmody will be paved for 2,640 feet starting at Roslin road.

Trustees also passed a request for a used car license to sell

mobile homes for Mobilife Corp. of St. Louis, Mich. The dealership will be located on M-139, across from the Ponderosa steak house. Also passed was a request for a used car license for Harold Balow for Balow's body shop at 1906 M-139.

The board listened, but took no action, on a presentation from Detroit attorney Chester Pearce, who co-authored Chapter 20 of the drain law.

Chapter 20 is a method of financing drains in developing

municipalities, Pearce said, and deals with public health. Benton township has been plagued with a drainage problem.

The board took no action on a letter from the liquor commission that said they had received a request for a beer and wine takeout license from Robert Finch for 1069 Highland avenue. Trustees did say they would inform the housing commissioner of the request, since the Highland address is near a Blossom Acres public housing project.

Revenue Sharing Spending Outlined

Health Building
Project Advances
In Van Buren

BY STEVE MCQUOWN
Paw Paw Bureau

PAW PAW — Much of Van Buren county's \$386,795 federal revenue sharing funds received to date has been used or earmarked for office machinery, an employee pension program and the county health department and welfare building.

How the money received between Jan. 1 and June 30 of this year is being spent was outlined in used information released by County Treasurer A. A. (Eddie) Smith.

During the six-month period, Smith noted, commissioners spent about \$135,470 of the funds received.

He said there remains a balance of \$254,847, which includes \$3,522 the federal funds drew in interest.

But, he said, a high percentage of that balance is earmarked for construction of the health-welfare building which will cost an estimated \$422,000.

Smith's release showed the biggest single expenditure during the January - June period was \$50,000 for the county building authority which was given the obligation of making all the preliminary arrangements for construction of the health-welfare building to be located between Lawrence and Hartford.

There was also a \$20,000 expenditure by the county board to update the county employee's pension program.

The county board also allocated \$4,000 for an office machine for the register of deeds office and another \$25,000 for a computer-type machine for the county treasurer's office.

Also appropriated was \$11,700 for the financially-troubled county library system.

The remainder of the expended funds were spent for: \$12,000 for the first year's salary for the assistant prosecutor; \$2,000 for a circuit court clerk; \$1,500 to aid Covert township in its appeal of a tax exemption granted Consumer's power company for its plant in the township; \$2,000 for the courthouse and grounds; \$3,000 to remodel the county juvenile home in Paw Paw; \$3,000 for juvenile court; and \$1,270 to carpet the sheriff's living quarters at the county jail.

BH Rink Scene Of Small Fire

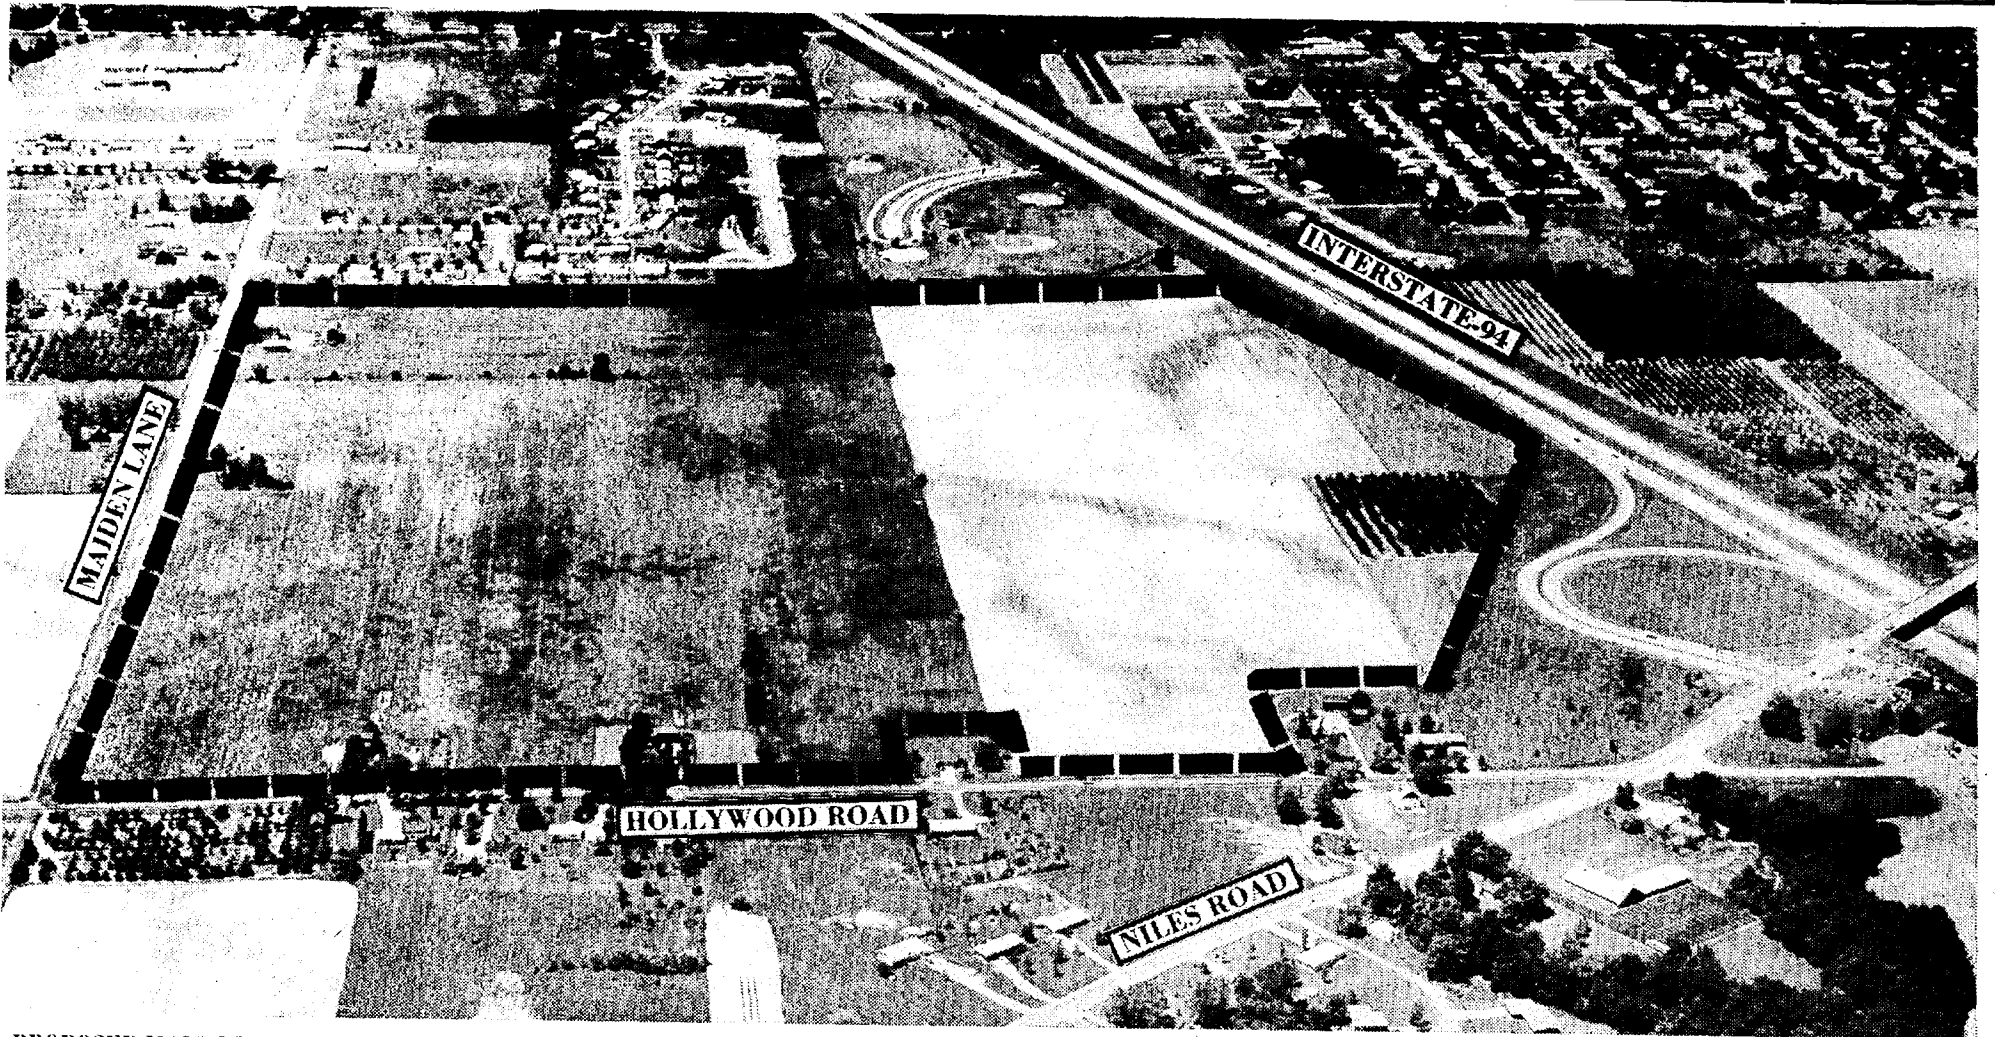

A fire in the front doorway at the G&W Skate-O-Rama, 453 Highland avenue, Benton Harbor, brought firemen to the scene Tuesday at 8 p.m.

Benton Harbor firemen said the blaze was started by a person with matches. Firemen said a bundle of paper towels and dust mops had been delivered to the building and placed on a vending machine, where they were touched off. Damage was confined to the towels and mops, firemen said.

Boom Times Continue At Bendix

SOUTHFIELD, Mich. (AP) — The Bendix Corp. has announced record sales and profits for the third consecutive quarter of the 1973 fiscal year.

The firm said Tuesday third-quarter profits totaled \$18.1 million, or \$1.10 a share, on sales of \$613 million. The previous record for a third quarter, \$15 million in profits, or 90 cents a share, on sales of \$609 million, was set in 1972.

PROPOSED MALL LOCATION: Aerial view shows site for projected shopping mall just off Niles road interchange of I-94 (right) in St. Joseph township. Broken dark line traces perimeter of 130-acre tract that is under op-

tion for project. Project which will require some years for realization was announced in late June by Development Control Corp. of Chicago. A price tag of \$28 million was put on

enclosed mall and allied commercial developments on site. Hollywood road runs left to right across picture near bottom, and Maiden lane is boundary at left. Niles road

Cass, SJ Counties In National Survey

BY CURT BARTON
Staff Writer

THREE RIVERS — The health and nutrition of about 500 residents of Cass and St. Joseph counties will be studied by U.S. public health service doctors during August and September as part of a nationwide survey.

Residents selected for the program will be interviewed and examined by doctors at a center to be established in

Three Rivers. Participants will be selected by scientific sampling procedures designed to result in a representative cross section of the population.

The team which will work in Cass and St. Joseph county includes doctors, dentists, nurses and technicians. Interviewers will visit the homes of participants.

The team is one of three operating across the country as

part of the Health and Nutrition Examination Survey, a two-year project of the public health service.

The project began last year. Over 30,000 participants ranging in age from 1 to 74 years will have been examined before it is complete, according to its staff.

The census bureau assisted the health service in designing the technique of selecting participants, and assists in field work at each examination location.

Owner To Modify Allegan 'Shotgun'

BY NICK TENERELLI
Special Correspondent

ALLEGAN — The national gasoline shortage doesn't seem to faze James Byerly, president of an Allegan metal fabricating firm, at least as far as his "speed machine" is concerned. His "Double-Barrel Shotgun," the U.S.'s first twin-engined jet dragster, will drink fuel at the rate of 40 gallons per quarter mile!

Although satisfied with the dragster's 175 m.p.h. plus which he attained Sunday at the car's maiden public exhibition, Byerly announced that he will add afterburners to the machine's twin dynamos.

The modification will boost the thrust of each engine from 1,102 to 1,600 pounds, and will double fuel consumption from 20 to 40 gallons per quarter mile.

Approximately 2,000 spectators witnessed the car's debut at the dawn patrol sponsored by the Allegan Jaycees. The event was held at the Allegan airport.

They Want \$5 Pot Law To Return

ANN ARBOR, Mich. (AP) — The Ann Arbor-based Human Rights party has announced plans for a petition drive aimed at restoring the city's \$5 fine for marijuana possession.

The ordinance was struck down by the Republican-dominated Ann Arbor City Council earlier this month, returning the community to the jurisdiction of stricter state laws.

Human Rights party spokesman Jerry De Grief, an Ann Arbor city councilman, said Tuesday that 3,500 petition signatures would be needed to place the marijuana question on the April 1974 city ballot.

Police officials announced last weekend they were not planning any crackdown on marijuana users despite the city council's action.

IN HOSPITAL

GANGES — Mrs. Jack Liepe, Ganges, has been admitted to Douglas Community hospital.

Who's Listening?

Some Policemen Don't Like Being Broadcast Stars

BY SCOTT WILLIAMSON
Staff Writer

Thousands of Berrien county residents can get the "inside" scoop on police activities in Los Angeles by watching "Adam-12" every week.

But hundreds of other Berrien residents get the scoop on the activities of Berrien county police agencies by listening to a 24-hour-a-day, seven-day-a-week radio show.

The radio show is broadcast live, on location, and up-to-the-minute. It is heard on police monitors.

Police monitors for home use run the spectrum of prices and complexity. A single-band radio can be purchased for as little as \$13, while a real connoisseur of the hobby can shell-out as much as \$500.

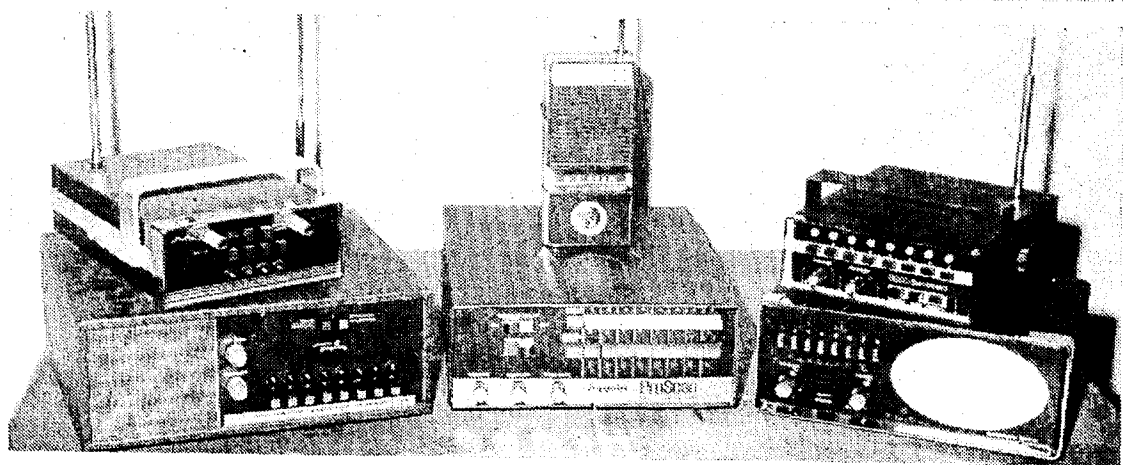

The most common monitors, called scanners (since they automatically scan through the various channels and lock-in when they pick up a broadcast) run from \$100-\$220. The \$100 model has four channels, while the \$220 outfit will pick up 16 channels.

While citizens who purchase the monitors usually do so just for listening enjoyment, the scanners are also obtained by criminals, who want to know the locations of police cars.

Opinions by the top officials in Twin Cities area police departments vary, from one chief who flatly says he's opposed to citizens listening, to another who condones the practice.

"I'm opposed to citizens listening to police calls," states Chief Keith Mills, of St. Joseph township police.

"People don't gain anything by listening," Mills said, and cited examples where police don't want the citizenry to know about an incident. He noted that where a fire is involved, people

SELECTION OF MONITORS: Listening to police on monitors can be as cheap or expensive a hobby as enthusiast makes it. These six police monitors at Monroe Electronics in St. Joseph township range in price from \$14 (top, center) to \$219 (bottom, center). Four band scanner (top, left) runs \$99,

while eight band monitor below it costs \$189. Both scanners at right have eight bands, with top one selling for \$189, and bottom for \$159. Local police chiefs have mixed emotions on use of monitors by citizens. (Staff photo)

often rush out to see it and get in the way.

However, Chief Tom Gillespie, of St. Joseph city police, says listening to monitors is O.K., "providing the listeners are law-abiding citizens."

Gillespie noted that "police have methods of scrambling reception and codes if they don't want the public to listen."

Joseph Sieber, Benton township police chief, goes along with Gillespie's view, and says he finds nothing wrong with citizen use as long as they don't abuse it.

He says citizens can help police locate stolen cars, or a suspect that they heard a description of over the radio.

Chief Andrew Rodez, of Benton Harbor police, noted that he saw no problem "as long as the citizens comply with FCC regulations and don't hamper us in doing our job."

Lt. Carl Holander, of the Benton Harbor state police post, said

Phased-Out, County-Owned Equipment

Berrien Sale Includes Boats, Bedpans

BY BRANDON BROWN
Staff Writer

From boats to bedpans will go on sale Aug. 1 when Berrien county government and county-owned Berrien General hospital at Berrien Center rid themselves of castoff and phased-out equipment.

County Coordinator Roger Petrie told county commissioners Tuesday that the sale, first billed as an auction but now by written bid only, will be held from 9:30 to 11:30 a.m. at the

hospital, and from 1:30 to 3 p.m. at the courthouse in St. Joseph.

Written bids should be submitted at those times at the hospital administrator's office and at the county coordinator's office.

The sale had to be held in two spots and hospital officials vetoed the clamor surrounding an auction, Petrie said.

A complete list of hundreds of sale items is expected to be published in this paper's legal notices Thursday and July 28. Sale items can be viewed by calling Mel Hamrey at Berrien

General hospital, and by calling Florial Rettig at the courthouse.

Sale items include used boats, motors and trailers surplus from the Berrien sheriff's marine division, a condemned X-ray machine, stainless steel bedpans and urinals, 52 steel hospital beds, siderails and mattresses, two working ice-makers, an 80 cubic foot refrigerator and compressor, and a 24 by 24-inch by 16-inch thick wood butcher's block standing 34 inches tall, Petrie said.

Whatever can't be sold will be scrapped, he added.

Continuous Cleaning Ovens . . .

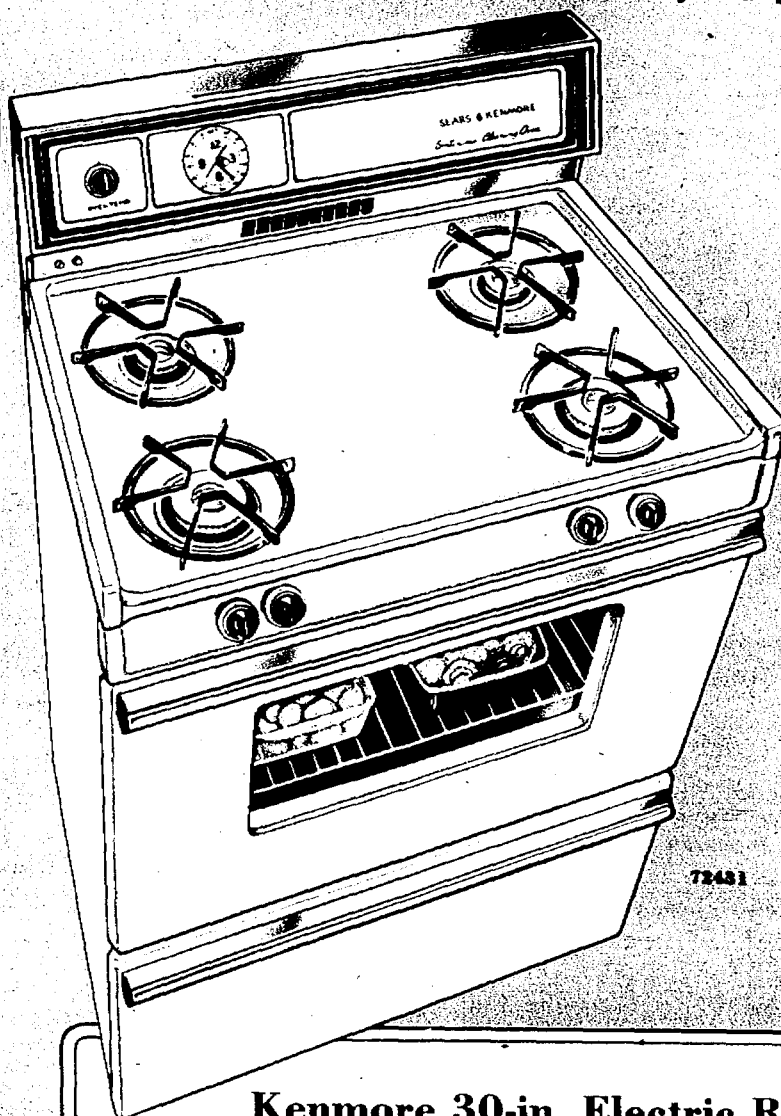

Specially coated oven interior works to clean away food splatters at normal baking temperatures.

About the Continuous Cleaning Oven

The continuous cleaning oven has a special coating which assists in removing grease and splatters. Unlike self-cleaning, there is no special cleaning cycle. During normal baking most splatters will disappear. You should wipe up major spills and splatters by hand for best results. Areas like racks and windows must be cleaned by hand.
